

EFINOR

As a global contractor since 1988, EFINOR has developed the knowledge and skills to support the challenges of the **Nuclear, Oil & Gas, Marine and Renewable energies industries.**

With our skills, knowledge and support from our global partnerships and supply chain we are able to deliver large projects that meet our clients expectations of quality and deliver schedule in a multi-cultural and international environment.

As part of our portfolio, we are able to provide global services through project management, engineering, manufacturing, installation, commissioning and support for Tanks and Vessels, as well as large and small Components critical to our clients needs.

800+ employees

23 locations
